- [Cobra 29LX Camo CB Radio](#) - \$119.99 (29% off)
- [Uniden PC78LTD Limited Edition Professional 40 Channel CB Radio with SWR meter](#) - \$67.99

Important Tip for You!

If you are using a 75822 handheld CB radio in your vehicle, remember to take off the handheld radio antenna and use only the antenna installed on your vehicle. You should not use both antennas at the same time. The handheld radio antenna is meant for use outside of your vehicle. If you use it outside of your vehicle with the small antenna and you aren't getting the range that you desire, consider getting a [SA2](#) antenna to attach to your handheld unit. This will increase your range!

- ❖ Do you have an important CB tip that could help others? We would love to share it on our Facebook page or in a newsletter. You can email it to us at wearecb@gmail.com. Thank you!
